What's the Blue Plate Special?

Remember your diner project? Blue plate specials are inexpensive diners. Please create this flyer to promote your diner. Before you start, be sure to read the following directs. Follow them as closely as you can -- if you are unsure, please ask for help.

1. Set the **LEFT, RIGHT, TOP, and BOTTOM** margins to **.5"** (**LAYOUT tab – MARGINS**)
2. Please use **WORDART** and **AUTOSHAPES** to create a logo and the rest of the heading. You may copy, paste, and resize the logo from a previous Ho-Made Café project or create a new one.
3. Below your name and logo, use **WORDART** with another contrasting style and font to create the heading *March's Blue Plate Specials*.
4. Create a line of your choice to define the end of this section of the flyer. **BE SURE THAT THE TOP HEADING OF YOUR FLYER DOES NOT EXTEND PAST 3" ON THE RULER (FROM THE TOP MARGIN) OR 3 ½" FROM THE TOP OF THE PAGE.**

5. Below the line you just drew that sets-off the heading. Select the **LAYOUT** menu, pull-down the **COLUMNS** menu, and choose **MORE COLUMNS**. In the dialog box that appears, select **TWO** and **aAt** at the bottom of this dialog box is a pull-down menu for **APPLY TO**. Select **THIS POINT FORWARD** (see graphic at right)
6. Select the **LAYOUT** tab, pull-down the **PARAGRAPH** menu, and set **LINE SPACING** to **1.5 LINES**.
7. Key the specials using **COOPER BLACK, 15** font, (or choose a similar font and size of your choice). Please use bold font that will stand out well on the page.

8. Click on the **NUMBERING** icon on the formatting toolbar **BEFORE** keying the dinner items. You should have a hanging indent as shown right (adjust if your computer gives you something different).
9. The computer should default and give you a ¼" **HANGING INDENT**. Highlight the menu items 10-31 and increase the hanging indent by holding **ALT** and moving the margin markers on the ruler as shown right.

10. Key the first column, letting the computer assign the numbers. When you finish "16. Spaghetti," pull down the **LAYOUT** menu, select **BREAK**, and select **COLUMN BREAK**. Then key the second column. Adjust the margin markers on the ruler as shown right.

11. In the space at the bottom of your document, insert some graphics of your choice to create a "mood" or "feel" for your promotional piece.
