New York, NY 10017

Dear Sir or Madam:

Congratulations to you for your fine "School of the Air" shows. It looks like the great ratings they get here in Wauwatosa reflect the high levels of interest that the rest of America has for your program. Each week, we look forward to your featured stories.

I shall be in New York on February 22 with three of our producers. We will be presenting some pilot programs to CBS. We would be most grateful if we could obtain tickets for a broadcast of your show. Being from a small production studio in a rural community, it would be wonderful to watch how the professionals in New York operate.

In the past, you have always been more than generous with your support and assistance. I certainly have appreciated your help in the past and look forward to returning the favors. I hope that you will let me know soon that we can have four tickets.

If you cannot help us watch the production of a "School of the Air" session, perhaps you can suggest another production that we could observe. In any case, your suggestions and help are always greatly appreciated.

Sincerely,

Your Name
Executive Producer
