### Part 1: My Wish List

(7 points)

- What are three things on your personal wish list? Include anything of monetary value.
- Approximately how much does each item cost?
- Place a star ★ next to the item you would like to start saving for today.

### Part 2: My Current Spending

(7 points)

- Identify three changes you are willing to make today to your current income or spending to start saving for the future.
- What is the trade-off for each change?
- Place a star ★ next to items with a realistic opportunity cost.

The diagram consists of three empty rectangular boxes arranged horizontally, connected by right-pointing arrows. Below each box is a shaded rectangular area containing the text "•Trade-off:". This structure is intended for students to list changes to their spending and identify the trade-offs for each.

### Part 3: Implementing My Saving Quest

(6 points)

The flowchart consists of four rectangular boxes stacked vertically, connected by downward-pointing arrows. The questions in the boxes are:  
1. How much can you realistically save each week for your item?  
2. What is your financial goal?  
3. What is one strategy you will use to make the saving process automatic?  
4. Describe how your goal can be reached using the time value of money.
